Powerful Cutting Anywhere

Fastest in class*1 Cutting Speed

Best in class*1 Overload Capacity

Smooth Wireless Linking*4 *5

Bluetooth wireless technology enables wireless linking with the RP3608DB cordless cleaner. That allows comfortable indoor work without dust.

Once Bluetooth pairing is completed, the cordless cleaner will automatically turn on or off when the connected tool starts or stops.

Features for Better Operation

Smooth Cutting with an accurate aluminium base

Quick and Easy Blade Change

The flat housing design with soft material on the surface provides the main unit with stability when it is laid on its side. This makes blade changing easier and also prevents the workpiece from being scratched.

Optional Accessories

Hook for hanging the main unit on the steel pipe, etc*6 No. 339187

Fluorine plate for smoother cutting No. 374261

Silent Mode

Ideal for applications in noise-sensitive areas, such as renovation and interior work. This mode improves motor efficiency, while lowering the noise. It automatically switches to the Power Mode when the motor load increases, enabling smooth cutting according to operating conditions.

Kickback Protection System

Detects a sudden drop in the motor rotation speed and stops the motor quickly to reduce the reaction force (kickback).

Warning Depending on operating conditions, the Kickback Protection System may not work or provide specific performance. Make sure that the workpiece is placed and supported properly and that the main unit is held firm during operation. In addition, carefully read KICKBACK AND RELATED WARNINGS in the instruction manual.

Blower Function

Clears dust and debris off the cutting path.

Soft Start

Parallelism Adjustment System

Selective LED Lighting Mode
