## Smooth Cutting with Fine Finish Anywhere

### Smooth Cutting like a Corded Tool

Owing to a highly efficient brushless motor and high power MULTI VOLT battery, this tool provides smooth cutting like a corded tool with fine finish.

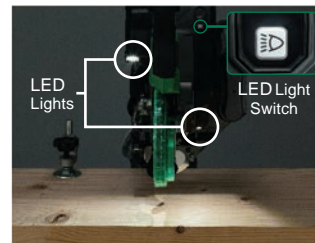

Runtime per Charge (approx.)\*1

Cutting Performance (approx.)

### Tool-on Twin LED Lights

Prevent users from being inconvenienced by lights during operation or while carrying the tool. The lighting mode can be changed for different applications.

### Dual Bevel Cutting Cutting Capacity at 0° (HxW): 58 x 310mm

Enables rapid cutting various materials including floor board without the need of rotating the workpiece.

### Lowest Noise in its Class\*2

The industry's first\*3 twin-belt drive system that offers low noise and comfortable cutting without any impact or vibration caused by gear abutment.

Noise Level (approx.) While cutting in 2X10 SPF.

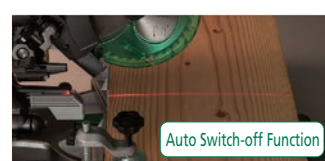

### Compact Slide System allows for efficient cutting in tight spaces

With a motor head that slides along the fixed rails with zero rear clearance, this system provides large cutting capacity in tight spaces or when the tool is placed against a wall.

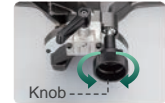

### Laser Marker: Guide System on cut line

### Bevel Angle Fine Adjustment System

Accurately sets the bevel angles by turning the knob while holding the motor head which is half-locked at the desired angle.

### Burr Reduction System

A spacer enables shallow groove cuts to minimize burrs on the materials when making slide cuts.
