Wireless Linking*1 with a Power Tool

Wireless linking with a power tool enabled by Bluetooth® wireless technology allows for automatic activation of the RP 3608DB cordless dust extractor. (Compatible power tools are shown above on the right.)

*1. Pairing is required for wireless linking; it is not possible to connect more than one tool at the same time.

Easy Pairing

Once the RP 3608DB and the connected tool are powered on, you are just two touches away from Bluetooth pairing.

(Press the cordless dust extractor's Auto/Manual switch and the electric power tool's wireless linking switch to activate pairing.)

Auto Power Off

After two hours without use, the cordless dust extractor turns off automatically.

Once Bluetooth® pairing is completed, the cordless dust extractor will automatically turn on or off when the connected tool starts or stops.

220W Powerful Suction without Cord

Turbo mode provides 220W suction power, making your job easier.
