Standard Accessories*4		AC Adapter

*1. Values measured 1m apart from the light.

*2. Using the BSL36A18. Actual runtimes may vary according to types of batteries and operating conditions.

*3. IP55 dust and water resistant products are designed to withstand the effects of dust and water, but there is no guarantee that they will not malfunction. Do not use or leave them in locations where they are subjected to excessive amounts of dusts, submerged in water, or subjected to rainwater. (Only main units conform to their protection class rating when equipped with batteries.)

*4. AC adapter is not provided for Korea, Taiwan, Malaysia, Israel, and China.
